

Municipal Broadband Conference

Holiday Inn & Suites Des Moines-Northwest
4800 Merle Hay Rd.
Des Moines, IA

March 30 & 31, 2016

Municipal Broadband Explorers Track

NEW IN 2016!

The 5th Annual **IAMU Municipal Broadband Conference** has a new track of workshop sessions specifically designed for communities that are investigating whether a municipal broadband project might help meet their citizens' needs for **fast, reliable, and affordable broadband service.**

In addition to the Explorer's track, you'll also enjoy informative general sessions and plenty of opportunities to network with representatives of existing municipal broadband utilities that have "been there, done that".

It's one of the largest annual gathering of municipal broadband communities in the nation!

Municipal Broadband Explorers Track

Expedition Leader: Christopher Mitchell

Christopher Mitchell is the Director of the Community Broadband Networks Initiative with the Institute for Local Self-Reliance (ILSR) in Minneapolis. Mitchell is a leading national expert on community networks and Internet access and serves as Policy Advisor to Next Century Cities, a national collaboration of mayors and CIO's seeking universal access to fast, affordable, and reliable Internet connections. He is also a Senior Advisor to the Coalition for Local Internet Choice.

On a day-to-day basis, Mitchell runs MuniNetworks.org, the comprehensive online clearinghouse of information about community broadband. Their interactive community broadband network map tracks over 450 such networks. His research and reports are available online at ILSR.org.

Schedule

Wednesday, March 30, 2016

10:00am-10:50am **Getting To Yes** Paul Scott, Decorah Fast Fiber; Vincent Tuner, Longmont, CO

It starts with an idea. And regardless of whether that idea comes from the grassroots or the leadership, getting the community on board with the concept takes time and effort. The panel in this session will discuss how they got to YES in their communities.

11:00am-11:50am **Tales From The Trenches** Mike Litterer, Waverly Utilities; Mark Erickson, Sibley County, MN

Every municipal broadband project-from conception to implementation-faces challenges. In this session you'll hear from representatives of two new public broadband projects on the hurdles they faced and how they overcame them.

2:50pm-3:40pm **Legal and Regulatory Considerations** Ivan Webber, Ahlers & Cooney P.C.; Jim Baller, Baller, Herbst, Stokes, & Lide

There are legal and regulatory steps that must be taken when developing a municipal broadband project. Ivan Webber has worked with many Iowa communities on the Iowa legal requirements, and Jim Baller is one of the nation's top experts on municipal broadband regulation.

Thursday, March 31, 2016

8:30am-9:20pm **Evaluating Business Models for Municipal Broadband Projects** Todd Kielkopf, kas; Jill Thornton & Dan Davis, Consortia Consulting

When considering a municipal broadband project, there are many approaches to examine. Publicly owned and operated? Public-Private partnership? Open access? In this session the panel will discuss the various models that communities have used as well as the advantages and disadvantages of each.

10:40am-11:30am **Municipal Broadband Financing** Steve Nadel, Ahlers & Cooney P.C.

Financing municipal broadband projects offers both challenges and opportunities. In this session Steve Nadel, who has helped many municipal broadband projects navigate the financing process, will share the do's and don'ts for putting your financing package together.

11:40am-12:30pm **Evaluating Feasibility Studies** Eric Lampland, Lookout Point Communications; Curtis Dean, Smart-Source Consulting

An important step in the municipal broadband roadmap is conducting a feasibility study. Eric Lampland and Curtis Dean will discuss some of the important elements of an effective feasibility study
